

Curb Mount Skylight Order Spec Sheet

The following information is necessary when ordering a custom size curb mount skylight.

There are two ways to measure:

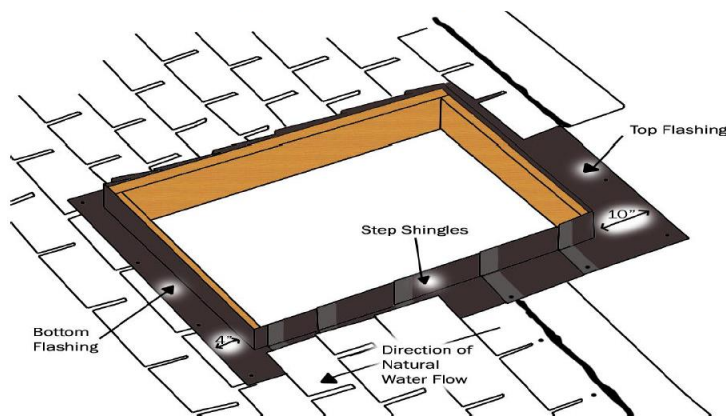

- 1) Skylight Frame Size – measure the lower base of the skylight. This is the main frame that will be covering the flashed wood curb on the roof. This measurement will be the outside dimension (OD) of the skylight frame. **Skylight will be manufactured to your exact measurement.**

OD of skylight frame

<p>Skylight Frame Size</p> <p>_____ X _____</p> <p>Qty. needed _____</p> <p>Dome Colors: Bronze/Clear, Clear/Clear, White/Clear</p> <p>Skylight Frame Color: Bronze or Mill</p>
--

- 2) Wood Curb Size – measure the wood curb on the roof. Make sure to measure across the top portion, length, width, and from corner to corner to have a measurement from each side. **Skylight will be manufactured 1/2" larger than the measurement given.**

<p>Wood Curb Size</p> <p>_____ X _____</p> <p>Qty. needed _____</p> <p>Dome Colors: Bronze/Clear, Clear/Clear, White/Clear</p> <p>Skylight Frame Color: Bronze or Mill</p>
